## ***A Guide to the Study of the Christian Religion***

Edited by GERALD B. SMITH

*A symposium covering the field of modern religious teaching*

The past quarter of a century has seen remarkable growth in theological knowledge and an unusual change in the points of view. Biblical and theological scholars have worked out new methods of studying old subjects which have led to surprisingly fruitful results. The editor of the present volume has compiled a comprehensive survey of this field by twelve well-known scholars.

"One can find here as nowhere else within the same compass an intelligent and authoritative summary of theological thinking as it exists today among those who by common consent are the recognized leaders in theological learning."—*Northwestern Christian Advocate*.

## **The Revelation of John**

By SHIRLEY JACKSON CASE

*Professor of Early Church History and New Testament Interpretation in the University of Chicago*

The central idea of the book is to explain the meaning of Revelation as its author intended it to be understood by those to whom it was first addressed. Few people know when or why it was written, and its specific reference to a millennium has made it much quoted in support of strange theories about the imminent end of the world.

The volume has been prepared especially to meet the needs of the preacher and the layman who desire a popular rather than a highly technical treatment of the subject. Especial attention is given to the explanation of such items as the "Beast," the anticipated end of the world, the millennium, and the new Jerusalem.

## **Some Religious Implications of Pragmatism**

By JOSEPH R. GEIGER

Dr. Geiger says that if pragmatism is to prove fruitful and suggestive for the interpretation of religious realities and for the criticism and evaluation of religious knowledge and truth, this must be by reason of its general doctrines concerning reality, knowledge, and truth.

What are these general doctrines of pragmatism, and what contribution do they make to the interpretation of religion?

The modern student of religion will follow the author's discussion with interest and profit, as the monograph abounds in philosophic information and stimulating suggestions.

**BUY A REMINGTON**

*It Lasts*

**T**HESE words *sum up* Remington Typewriter supremacy.

Yes, it is true that the Remington leads in special time and labor-saving features—the Self-Starter, the Key-Set Tabulator and the like.

It is true that the buyer who wants the very latest and best ideas in typewriting must go to the Remington.

It is true that the world's record for actual gross speed in typing was made on a Remington.

But underlying all of the distinctive Remington facts is the universal fact—the surpassing strength which causes every Remington to render reliable service and keep doing it through years of constant use.

**THE NEW ORTHODOXY**

By **EDWARD SCRIBNER AMES**

Associate Professor of Philosophy  
The University of Chicago

The war marks the beginning of a new epoch in Christianity. Religion is gaining in reality and sanity and also in vision and incentive. The old orthodoxy sought correctness of opinion through tradition and authority. The new orthodoxy rests upon deeper grounds. Its foundations are in the nature of man; not in his superstition or his credulity but in his heroism, his kindness, and his imagination. The concerns of religion in our day are bound up with science and art and social idealism. This book is a popular, constructive interpretation of man's religious life in the light of the learning of scholars and in the presence of a new generation of spiritual heroes.
